

SUPERVAP

Maximum Pressure	10BAR / 145PSI
Maximum Temperature	180°C / 356°F
Max. Steam Output Dry	13,2lt./hour – 220gr./min.
Max. Steam Output Wet	18lt./hour – 300gr./min.
Water Tank Volume	20lt. Stainless Steel Internal
Electric Heating Power	9000 Watt (Single Boiler AISI 304)
Voltage	220/400/480V~ 50/60Hz
Dimensions LxWxH mm	880x600x1130
Net Weight	56kg
Dry Steam Regulation	Manual 0 – 220gr./min.
Wet Steam Regulation	4 Levels approx. 20/40/60/80 gr/m
Detergent Function	*4 Levels approx. 20/40/60/80 gr/m
Detergent Tank Volume	2 x 5lt. PET Canisters
Vacuum *	*Optional Function
Vacuum Power	1200 Watt
Vacuum Container Volume	20lt.
Continuous Feeding Inlet	YES - 3/4" BSP Rapid Lock

* the levels for the detergent output can be programmed to customer specification if this should be required!

The SUPERVAP is our most sold 3phase machine. Capable, with its single boiler, of delivering a maximum 220gr/m of dry saturated steam and up to 300 gr/m of wet steam, it resolves most steam cleaning application. Highly versatile with it's electronic control of the wet steam or detergent output quantities. Able to run for a very long time between tank refills due to the 20lt. capacity of its stainless steel water tank. The chassis remains compact and easy to move with the standard front castor wheels but is also available with 4 big rubber wheels! The Vacuum Kit makes the machine even more versatile and opens up further potential areas of application! *The working pressure remains constantly between 7.5 and 10Bar, even after hours of uninterrupted use!*

Proud to deliver the steam you demand!

Steam Victoria
VAPOR CLEANING TECHNOLOGY

STANDARD ACCESSORY SET

The SUPERVAP 2012 Edition features:

- ✓ new electronically regulated Wet steam with 4 output levels for the perfect moisture level when moist steam is required!
- ✓ new electronically regulated Detergent injection for low consumption yet continuous use. Also ideal for better regulation with different detergents!
- ✓ new 20lt. capacity internal stainless steel water tank for extra long autonomy!
- ✓ new tank inlet Ø 150 mm for easy and rapid filling, plus a control LED when full!
- ✓ new heavy duty pump feeding the boiler!
- ✓ new big water filter with fine mesh and easy maintenance through a dedicated ON/OFF valve!
- ✓ new anti-calcification filters for higher water throughput and low maintenance cycles!
- ✓ can be connected to a belt cleaner through a dedicated adapter!
- ✓ continuous feeding water inlet, 3/4" BSP!
- ✓ the Boiler Group is 97/23CE (PED) certified by TÜV Rheinland!
